

GENERAL ANNOUNCEMENT

At Reacciones Químicas S.A. de C.V. (RQ), we have prioritized expanding our manufacturing capacity, diversifying our products, and building a technical knowledge base that drives innovation. Given the success we have achieved so far, we are excited to move forward with our plans for growth and expansion into new horizons.

Following up on the May 7th announcement, and as part of our growth and strengthening vision, we are pleased to announce that the Harrison City plant in Pennsylvania will now be known as **RQ Resins**. This plant will specialize in the manufacturing of alkyd resins and is part of the **RQ Family**.

We are incredibly excited to begin this new chapter and want to express our gratitude to our customers and suppliers for the support and trust you have shown us. Your continuous support drives us to reach new heights and fills us with motivation to continue innovating and growing together.

Sincerely,

Patricio Cueva García
Chief Executive Officer
Reacciones Químicas
